

# DAN SEAMARKS FOR VP HARROW

HERE FOR **YOU**, HERE FOR **HARROW**

Hi, I'm Dan Seamarks, I study journalism and want to be your next VP Harrow.

Why? I believe that it is time student's got a better deal from the University and Students' Union.

I've worked for the SU in a few posts and know what needs doing to give you the best experience.

You're saying you're dissatisfied at the moment, so I want to change that.

Trust me to make Harrow and the SU great for **you**.

## BETTER RESOURCES, BETTER ACCESS

Working with the University to get a complete 'digital library' online by 2017. 300 students and one book isn't good enough.

Easier access at weekends to specialist facilities plus end associated fees.

Pressure the University to end or actively promote additional course costs.

Better promotion of supprt offered by SU and University.

## A BETTER UNIVERSITY LIFE

Making sure food contractors are charging fair prices, not what they can get away with.

Ensuring success is never based on wealth and your work is always protected.

Work with businesses to seek partnerships that will get students relevant work experience.

SU student staff off zero hour contracts.

## NUS REFERENDUM

Is our £40k membership worth it? You decide.

If you vote to leave, I'd reinvest in what you want, not what the Union chooses.

## MORE MONEY FOR STUDENT ACTIVITIES

At least an additional £5,000 to sports and societies budgets to make them accessible.

Better funding system for societies and sports teams.

More support and funding for participation in external events.

Better promotions of societies throughout the Union.

Grants to back student-led initiatives.

## YOUR UNION, YOUR WAY

Making sure the SU is always available 10am to 5pm and always contactable.

A Union that understands all of its members and their needs.

If elected I want to make sure you drive the Union's decision making.

A Union that always works as one.

## YOUR HARROW!

Renegotiating to have spaces open until **11pm** during the week with a long term goal of 24 hours.

Better selection of food and drink on sale plus provisions for out of hours.

Fighting to make **you** are everyone's top priority.

Working with the University to ensure Halls are adequate.

Re-launch and grow MADFest.

Creating a safe campus.

Proper gender neutral toilets.

## MAKING MONEY GO FURTHER

Making sure we never waste a pound of your money.

A spending system that benefits students and prevents recklessness.

## BACKING OUR MEDIA

Continue developing current plans for a fully equipped Student Media Centre.

Closer links with courses to help improve output and skills learnt.

Bring back and develop SmokeFest.
