

Tasawar Khurshid manifesto

Running for Vice President for Regents and LTS campus, Studying History, final year

My purpose in running for this position is to build a more efficient and productive Student union. I have been able to play a part in the development of the Student Union through being a society president, a course rep and a promotions assistant. This is what I wish to do if I am to be selected:

Supporting students: More support from the union at all times and especially during exam periods. This can be done by offering students refreshments to ease through the stress of exams. Furthermore, this can be done on a weekly basis to ensure that students know of the union and the help it can provide.

Freedom of speech: All students should be able to say what they feel. Therefore, I aim to work with the liberation officers to make sure no one is left neglected of views or opinion.

Cross campus activities: I aim to get students more involved in taking part in all activities offered across all campuses to ensure the best university experience.

Social Activities: more activities both on and off campus. Provide students with wide range of activities, therefore making full use of the deep end. Furthermore, get in touch with external organizations for students.

Working with local councils: this will be highly beneficial to improve relations with the council and could prove worthwhile if there any issues in the university.

Quality external speakers: this will improve attendance at events and will be highly memorable. It shall also open the door to even more speakers in the future.

Work with NUS: in order to help students with issues that surround their daily lives such as high travel costs.

Employability: work with course based societies and faculties to ensure more events and opportunities are allowed for students.

International students: should be welcomed through the university and the union. There should be more association between international and domestic students.

Little Titchfield Street:- More **student union presence** in LTS. This can be done by taking a small part of the LTS area and placing something that permanently represents the union. Bring goods such as a microwave other similar tools in the library. This could be of great use for those students staying in the library for a long time. Bring **air conditioning** in the library especially the first floor. More **laptop accessibility** to help students at all times.
